PROFESSIONAL SUMMARY

BCA graduate specialising in full-stack web development with hands-on experience building role-based web applications using Python/Django, PHP/MySQL, and modern frontend technologies including TypeScript and SCSS. Delivered two end-to-end projects covering requirements, design, development, and deployment. Seeking a junior developer role where I can contribute to product growth while deepening industry experience.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, SCSS, SASS, JavaScript (ES6), TypeScript

Backend: Python, Django, PHP

Databases: MySQL, SQLite

Languages: C, C++

Tools: Git, GitHub, VS Code

Concepts: OOP, SDLC, Role-based Auth

Spoken: English (Proficient), Malayalam (Native)

PROJECTS

Internship Platform | Python · Django · SQLite · HTML · CSS · JavaScript · Git

- **Designed and built a 28-page**, full-stack role-based web app connecting **3 user roles** (students, employers, admin) across **12 database tables** in a single Django application.
- Students can register, browse **2 internship types**, apply, upload resumes, and track application status; employers can post listings, review applications, and manage payments.
- **Built a 7-module admin dashboard** managing: Users, Employers, Internship Listings, Industry Management, Internship Categories, Applications, and Payments — eliminating manual coordination across all modules.
- Future roadmap: payment gateway, email/SMS notifications, internship recommendation engine, and React Native mobile app.

Tourism Management System | HTML · CSS · JavaScript · PHP · MySQL

- **Built a 20-page** web-based tour booking platform across **10 database tables**, allowing users to browse destinations, view packages, submit enquiries, and complete bookings with a secure login system.
- **Developed a 6-module admin panel** enabling: Package creation & management, Destination management, Category management (Designation & Package), User management, Enquiry management, and Booking management — covering full CRUD across all modules.
- Future scope includes Razorpay payment integration, email/SMS notifications, advanced search filters, and a mobile-responsive redesign.

EDUCATION

Bachelor of Computer Applications (BCA)

PG Radhakrishnan Memorial Sree Narayana College, Channanikadu

Affiliated to Mahatma Gandhi University, Kottayam

2023 – 2026

Completed 2026

CERTIFICATIONS & COURSES

Mastering HTML, CSS, SCSS, SASS, JS, TypeScript & Python — Udemy [\[verify\]](#)

Mar 2025

Workshop on Java Full Stack — Spectrum Softtech Solutions Pvt. Ltd.

Feb 2026

Soft Skills Program (Communication, Interview Skills, Presentation, Group Discussion, Business & Email Etiquette) — TCS
iON — Tata Consultancy Services

May 2026

ACHIEVEMENTS & ACTIVITIES

- Completed 3 industry-recognised certification programmes covering full-stack development, Java, and professional soft skills (TCS iON, Udemy, Spectrum Softtech).
- Built 2 full-stack web projects independently as part of BCA programme — both publicly available on GitHub with full source code.
- Active on HackerRank — solving problems in Python and web development: hackerrank.com/nandhakishor
